

# CANDY DISH

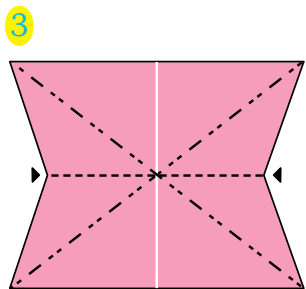

BEGINNER'S LEVEL

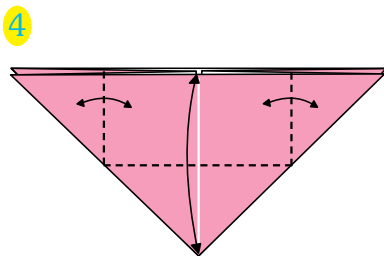

1. Fold along each diagonal, then unfold.

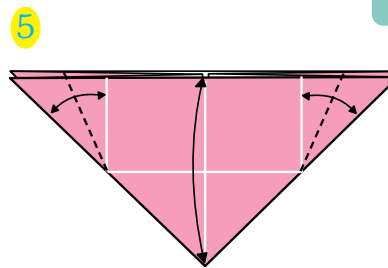

2. Flip the sheet over, fold then unfold at the center both horizontally and vertically.

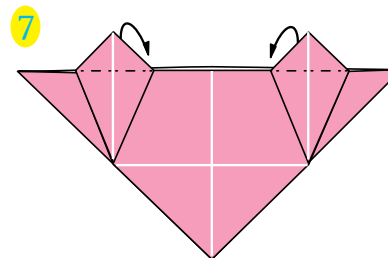

3. Use the folds you just made to fold the sheet into the shape of a triangle.

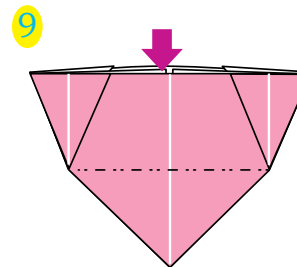

4. Fold the side corners inwards, then unfold; afterwards folds the bottom corner toward the top, then unfold.

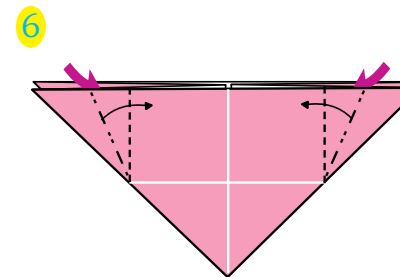

5. Fold the side corners to the crease you made in step then unfold.

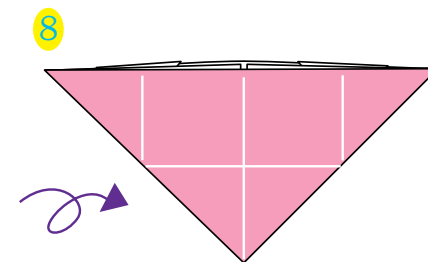

7. Tuck the two triangles that have popped up into the model's top layer.

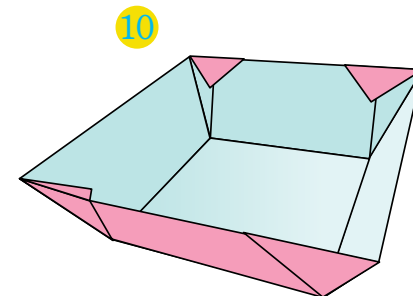

9. Open carefully, gently reinforcing all the folds in order to end up with a three-dimensional model.

6. Open the corners that you just unfolded and fold them as shown, which turns the valley fold into a mountain fold.

8. Turn the model over and repeat steps 4 through 7.

10. The candy dish is done!
